

BEST IN CLASS SUBMISSION REQUIREMENTS

At Euclid Life Science Specialty, we strive to provide best-in-class coverage solutions for our clients. The more information we are able to receive and review, the better the outcome for favorable coverage and policy terms. The following is a checklist of desirable materials that will assist us in providing terms as efficiently and effectively as possible if not publicly available.

- Current Life Science specific application with Insured signature and date.
- A list of all current, proposed, and discontinued products with revenue and unit counts for each.
- Most recent audited financial statement.
- 5 year currently valued (within 60 days), ground up loss history.
- Active clinical trial schedule, informed consent form and protocol documents.
- 3 largest manufacturing or service agreements.
- Independent contractor, physician, hospitals, laboratories agreements.
- Quality control, cGMP Compliance Procedures, Business Continuity Plans.
- Complaint resolution, adverse event reporting policies including adverse event/severe adverse event roster for past 5 years.
- Procedures for label change, doctor notification including all label date changes within the retro date time period.
- Provide copy of all marketing/sales brochures.
- If previous insurance is in effect, submit the prior declarations page for limit and retroactive date validation.
- All related or batched claims with an up-to-date standing of litigation/claim activity and any active relation/batch declaration from the carrier.
- Product recalls within retroactive date period.
- History of regulatory review, including 483s and responses.
- Executive leadership qualifications, history and tenure with the insured.
- Claim self administration or TPA details, if requesting a Self-Insured Retention.
